Sheets and Shoes for the Summer

Sure, kids like to go bare foot in the summer time. But for some kids, it is not just an option.

For the lone, young boy in the photo above, the soil in his colonia, makes bare feet an unhealthy option. We were thrilled to get more shoes from "Soles 4 Souls," and Hilarious Givers to distribute in Mexico. All of the kids and adults who got new shoes were most grateful. I sure wish you could experience their smiles like we do. But thanks for making it possible!

Veronica and her family (upper left photo), are one of the families we have adopted. Veronica's daughter Karen, is the young girl who died due to lack of medical care she needed. You may remember that we started the "Karen Fund" in her memory, in order to ensure that future medical needs we encounter, would not be neglected. Recently, the fund was able to pay for Veronica to have 2 infected teeth extracted. Veronica and her family have been a blessing to spend time with, as they

have grown closer to the Lord. In fact, she and her now husband, recently got married as a witness to their commitment to Christ. *(It is very common for many couples to never marry in Mexico).* If you have not yet taken a look at our new video online, be sure and check it out to see this family featured.

Ya know how good it feels to sleep on new, clean sheets?

Bundles of sheets are being donated weekly from a local hotel. The fancy upper thread kind, and an abundant blessing to pass along to many places! We have taken hundreds across the border so far. *Yes, another restricted item that has to be strategically moved.* So far, the sheets have been distributed to the Mi Casa Children's home center, Camp of Faith infirmary (photo above right

and center), El Refugio Elderly home, many Rehabs and family homes. The really cool thing, is our partner Vicente has enrolled some local teenagers to go with him. and change the beddings at the various facilities, while also caring for the occupants! They love having the company. Wanna come go with us?
