Intercessor experience:

"It was very sad to see stray dogs in the area where we were giving people food. I love the tacos, they tasted so good! The kids loved the panda on the iPhone and couldn't stop yelling at it. I saw the birth of a baby dog! The baby dog couldn't see or hear anything and the mother dog didn't know what to do and the mother of all the children at the home was helping the dog give birth. One of the boys thought he was very special because he was the only one who could speak more English than any other kid in the group. He was yelling " I speak English!" (Elisha 8 yrs old)

"It was so fun to experience what I had been praying for! I saw the famous green light and waited for Wayne and Greg with Elisha for approval by the immigration control center. The first stop we met Wayne's upholsterer friend and his wife..and having seen some of his work at Wayne's house I was really impressed!"

"Things moved like clockwork..but relationship seemed to be the key. I could tell everywhere we went how grateful the people were for what Wayne was doing. We prayed for the upholsterers wrist to be healed, for the people at the end of a dusty road who had lost their 15 year old daughter to disease. Now their whole neighborhood is getting blessed with food and sheets and sundries because of their relationship with Wayne and Greg!"

"We ate delicious tacos and chatted with the street taco vendor and his son and then drove off to distribute around 800 loaves of bread to 200 people who had been waiting in the street for hours until we arrived at 10 pm. All were thankful and happy to talk to us! The group of about 8 kids were enamored with the iPhone app I had where the Panda repeated them word for word! They laughed hard at that Panda, and God was in the midst of us laughing too, because He Loves people where they are, and we were

with Him enjoying His Love being spread through a few willing vessels! What Joy!! What Fun!!!"

Recipient Thanks:

"We are very grateful to VOB for their weekly support in produce and bread to our orphanage. You guys are doing the Father's will and we pray a hundred fold blessings upon your ministry. Your contribution helps feed 60 children weekly, which is 180 meals a day! On behalf of the children, we thank you for your obedience to the call, and for the burden you have for Tijuana! Together we are bringing change!!"

[Sara Neff, with her husband Kevin, Direct Lilly of the Valley Orphanage. We just recently celebrated their 25th anniversary of providing shelter and education for hundreds and hundreds of children through the years.]
