

I really enjoyed my trip to San Diego California and Tijuana Mexico. I hope to go back again sometime. And maybe you can visit with your family one day.

But if you visit Mexico you have to have pesos to buy anything. It is like our dollars only a different value. I brought back some pesos so that Brooke can share them with all of you in her class. It is yours as a keepsake or souvenir of my visit to Mexico. Or maybe you can give it to someone in Mexico one day to help their family.

Juarez & Lincoln 1860's

This 20 pesos is worth the same as our one dollar bill. Or more like one dollar and ten cents. The man on the peso is Benito Juárez, a popular past president of Mexico. He was president during the time that Abraham Lincoln (the man on our five dollar bill) was president of our country the United States of America. President Juárez and President Lincoln worked hard to make our two countries to be good neighbors.
